

Industrial clamping by Forkardt Buck, delivered by Nomo.

Reliable clamping solutions keep your production running smoothly. At Nomo, we deliver quality and cost-effective chucks to minimize downtime and boost productivity.

Nomo provides smart, cost-effective, and reliable clamping solutions for the manufacturing industry, subcontractors, and workshops.

We supply high-quality products from Forkardt Buck – known for their standard pricing and quick delivery times, ensuring your operations run smoothly without costly delays. Forkardt Buck combines precision and functionality with fast availability – fully compatible with Kitagawa for seamless replacement or upgrade. Nomo brings it directly to your production floor.

Your Benefits:

- High precision and reliability
- Quick changeovers – improved productivity
- Robust design for long service life
- Competitive pricing and fast delivery
- Fully interchangeable with Kitagawa chucks

We help you find the right solution – quickly, easily, and without compromising on quality.
