"Steel mill had lubrication and water ingress problems and made major savings as Nomo analyzed the application and replaced unsealed roll neck bearings with a sealed solution"

"Problem application at large steelworks. Nomo replaced gear couplings with Quick Flex, which generates large cost savings"

"Nomo's own specialists for the steel industry work actively with application analysis and bearing repair and recycling to reduce costs, minimize unplanned maintenance and protect the environment"

"The Nordic region's widest and deepest industry-specific range for fast delivery"
