"Sawmill had recurring wear problems on the adjustment plant's roller chains. Nomo found a solution with a special chain, which generated significantly fewer downtime"

"Automatic lubrication cartridges for chains and bearings"

"Nomo replaced flange and steel ball bearing units with split roller bearings, which significantly increases service life and allows for significantly faster replacements"

"Optimizing your production is Nomo's goal"

"Nomo's own specialists in the sawmill industry work actively with application analysis and revision to reduce costs, unplanned maintenance stops and protect the environment"

"The Nordic region's widest sawmill and wood industry-specific range"

"Great time savings in adjusters and planers, which have long shafts, with split spherical roller bearings from FAG"

"Nomo offers Smartti - an automated warehousing system"
